

Biology in the News

Biology in the News

PURPOSE:

- ✓ to recognize that an understanding of biology is necessary in order to better understand current events and dilemmas
- ✓ to understand the importance of each citizen's participation in the critical decisions currently facing humankind

DETAILS:

This is an opportunity for extra credit! You will find an article that is related to biology and follow the procedure below.

PROCEDURE:

1. Find an article—you may find one in a daily newspaper, internet news, or magazine. Make sure that the article is no more than 2 years old—in other words, keep it current!
2. Write a summary of the article in your own words.
3. Explain how an understanding of biology concepts would help a person better comprehend and evaluate the issues described in the article. Be sure to explain what aspect(s) of biology it would be helpful to know more about.
4. Turn in your article (be sure the date of the article is visible) and your summary stapled together.

GRADE:

Each article is worth 10 points.

You will be evaluated both on the selection of the article AND on your written summary and analysis. Articles must be turned in on time for full credit.

The articles are due 1 week before the end of the quarter. NEATNESS counts!
